

Pharmacy signage

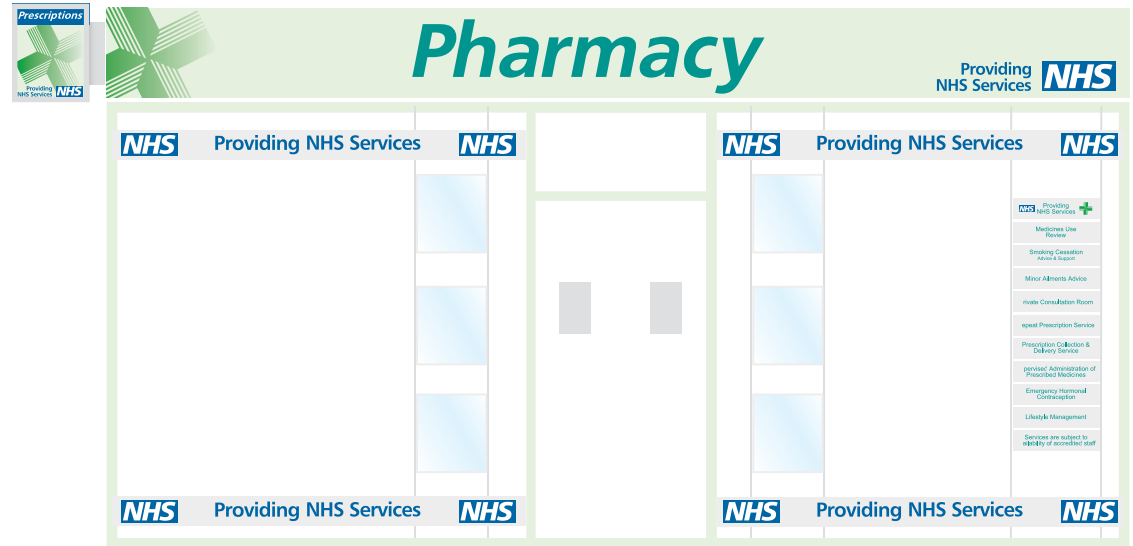

Changing for success.....

A change in Pharmacy contracts means that you are now offering more NHS services to the local community than ever before. To help customers recognise these additional services offered the NHS logo can now be incorporated within your signage.

First Signs can advise on how best to incorporate the new NHS logo within your signage scheme and can supply the identity in accordance with the Department of Health guidelines.

To put your signage requirements into experienced hands contact Jonathan on **01279 467 999** or email jonathanburge@firstsignsandlabels.co.uk
